ED-VESA-2T4

VESA Adapter Plate

The ED-VESA-2T4 is a VESA adapter plate that converts the 2 mounting holes on a device into a standard 4-hole VESA interface, making it compatible with various VESA-standard mounts.

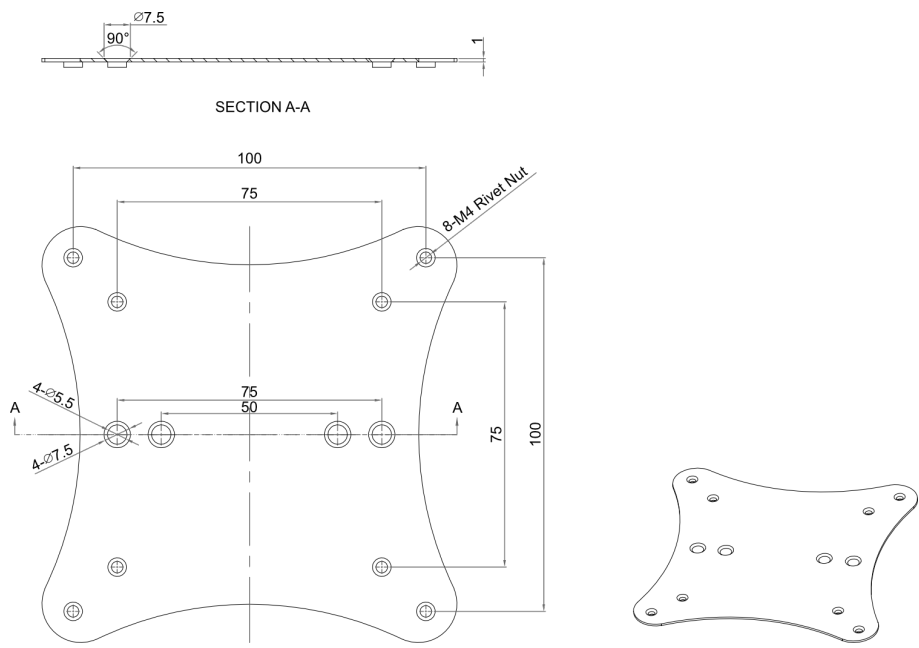

Specifications

Basic Parameters	
Material	Sheet metal
Color	Black
Weight	About 90g
Max Load Capacity	10kg
VESA Hole Pattern	75mm/100mm
Applicable Devices	ED-HMI2002-070C ED-HMI2002-101C ED-HMI3010-070C ED-HMI3010-101C

Dimensions

Unit: mm

Ordering Code

Model	Description
ED-VESA-2T4	VESA Adapter Plate

Packing List

- 1 x ED-VESA-2T4 (with 2 M4*4 screws)

Installation

Parts List:

NO.	Name	Quantity (PCS)
①	ED-VESA-2T4	1
②	M4*4 screw	2
③	ED-HMI3010-101C (Not provided)	1

TIP

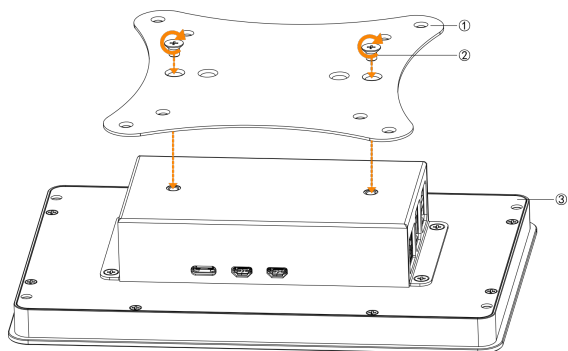

Here, the ED-HMI3010-101C device is used as an example for illustration purposes only.

Preparation:

A Phillips screwdriver has been obtained.

Steps:

1. Align the two mounting holes with 75mm hole spacing on the VESA adapter plate with the two mounting holes on the ED-HMI3010-101C. Then insert two M4*4 screws and tighten them clockwise with a screwdriver to secure the VESA adapter plate to the ED-HMI3010-101C.

2. After the adapter plate is installed, the ED-HMI3010-101C device will be compatible with standard VESA mounts featuring either 75mm or 100mm hole patterns.
