ED-ACCLENS-M12-LR

M12 Lens Locking Ring

Overview

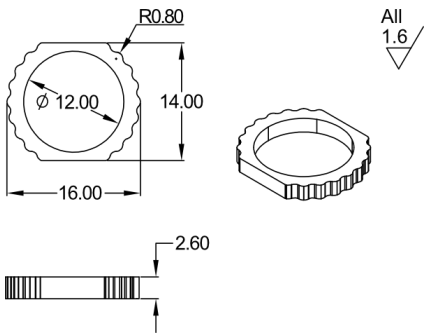

ED-ACCLENS-M12-LR is designed to securely fasten and stabilize the M12 lens, ensuring proper alignment within its mounting system. This locking ring provides robust support, preventing any movement or misalignment, making it an essential component for maintaining the integrity and performance of your optical setup.

Specifications

Mechanical Characteristics	
Height	2.6±0.02mm
Diameter	14±0.02mm
Color	Black
Material	Aluminum Metal
Weight	About 0.55g

Mechanical Drawing

Unit	mm
Size Tolerance	±0.02
Angle Tolerance	±1°

Ordering Code

Model	Description
ED-ACCLENS-M12-LR	Locking ring for M12 mount lense
